

**REMARKS**

Claims 1-9 and 13-20 remain pending and allowed in this application, in which claim 1 represents the sole independent claim. Each of claims 1-9 and 13-20 stands allowed pursuant to a Notice of Allowance and Fees Due ("the first Notice") mailed February 22, 2010 and a Supplemental Notice of Allowability ("the supplemental Notice") mailed March 26, 2010. With this Amendment, Applicants request correction of certain typographical errors including those related to proper antecedence. These amendments present no new matter and no new search is required. In view of the amendments above and the following remarks, Applicants request the Examiner to admit the instant amendments under 37 CFR 1.312.

It is submitted that the amendments presented herein do not affect the scope of the amended claims; instead amendments simply make clear that the "system" referred to in claims 1 and 2 is the "machine control system" recited in the preamble of claim 1. The amended claims require no additional search or examination because the subject matter of each has not changed, and each claim remains patentable for the same reason(s).

Applicants believe no additional fees are necessary in connection with the present amendment. However, in the event any fees are necessary in view of the present amendment, please charge the cost thereof to Deposit Account No. 13-2855, under Order No. 30051/41004.

Respectfully submitted,
